KEYNOTE SPEAKER

GABE HOFFMAN-JOHNSON

Gabe Hoffman-Johnson, founder and chief community officer for Portland Hearts of Pine, always intended for Hearts to be a purpose-driven club that represents all those who have their hearts in Maine.

For Hoffman-Johnson, using soccer as a force for good comes naturally: he is the son of Libby Hoffman, an international peacebuilder who founded Catalyst for Peace, and Seth Johnson, a collegiate soccer coach and athletic director. His family shaped his worldview, and his upbringing instilled in him an unquenchable desire to use the unifying power of the world's game to make a difference in the world.

Hoffman-Johnson—whose younger sister Anna attended Southern Maine Community College—was named two-time Maine State Player of the Year and two-time All-American at Falmouth High School while leading the Navigators to three state soccer championships. As a collegian he captained Dartmouth College's men's soccer team to multiple Ivy League championships and NCAA tournament appearances, while also collecting items from the Upper Valley community to donate to people in need in Africa.

After graduating from Dartmouth, Hoffman-Johnson spent several years playing soccer professionally before briefly working in finance in New York City. In 2019 he returned to Maine and began the process of creating the hottest soccer team in America, one that has made waves in the international futbol community.

In early April, Hearts announced the Community Ticketing Program to give all fans, regardless of their backgrounds or financial situations, the opportunity to join the team at 'Fitzy' during its inaugural season. Through that program, 1,400 tickets will be distributed to the City of Portland's Office of Economic Opportunity, Portland public schools, local youth soccer organizations, the Portland Housing Authority, and MaineHealth for those organizations to distribute to in-need members of their respective communities as they see fit.

ACADEMIC HERALDRY

CAPS

The black mortarboard or Oxford type is usually worn. There is also a soft cap, resembling an oversized beret, usually reserved for doctors. Certain universities use a gold tassel instead of black to distinguish the cap of a doctor.

GOWNS

Bachelor's – This is a simple black gown with a fairly elaborate yoke. The sleeves are long and pointed. There is no adornment, although a few institutions permit a piping of the school color on the yoke.

Master's – Until 1960, the gown had long sleeves with the arms emerging from the sleeve through a slit at the elbow. The rest of the sleeve dangled, terminating at the knee of the wearer in a square cut end into which a semicircle was cut. In 1960 this gown was modified, and an opening was made at the wrist.

Doctoral – This is an elaborate gown made of velvet, or with velvet panels around the neck and down the front, with three bars on bell-shaped sleeves. It is more fully cut and may be ornamented with a paneling and bars in color to indicate the faculty or degree. A few universities permit the doctoral gown to be in color.

HOODS

The distinguishing color of the hood tells the most about the wearer. Bachelor's hoods are three feet in length. Master's are three-and-one-half feet in length, and doctoral are four feet in length. Hoods are lined in silk with the official colors of the institution granting the degree. Bindings on hoods are respectively two, three or five inches in width for bachelor's, master's and doctoral. The color of the binding indicates the area of study in which the degree was granted.

The following list indicates a few of the colors associated with various degrees.

Agriculture	Maize
Arts, Letters, Humanities	White
Accountancy, Business, Commerce	Drab
Economics	Copper
Education	Light Blue
Engineering	Orange
Fine Arts, Architecture	Brown
Law	Purple
Music	Pink
Philosophy	Dark Blue
Physical Education	Sage Green
Science	Golden Yellow
Social Science	Cream
Theology	Scarlet

ACADEMIC MACE

The ceremonial academic mace, which you see on the platform before you, is an historical amalgam of the regal scepter of rulers with the weapon-like instrument known as a mace. The first dated record of the ceremonial academic mace goes back to 1385 at the University of Vienna. An academic mace is traditionally carried in procession and mounted on stage whenever degrees are granted or when the faculty is assembled in formal academic dress.

Listing in the commencement program does not constitute official confirmation of completion of degree requirements. Because final action cannot be taken prior to printing this program, the list of candidates for graduation is tentative and may include students who, although part of the class graduating in these commencement exercises, will complete graduation requirements after commencement
