Mission

Southern Maine Community College empowers students to respond to a changing world and enhances economic and cultural development in Southern Maine by providing a variety of educational opportunities and partnerships.

Beliefs

Access. Southern Maine Community College believes that access to higher education is a fundamental value of democracy.

Responsiveness. Southern Maine Community College believes that the College must be responsive to the changing world and to the educational, social, and cultural needs of our diverse student population and the State of Maine.

Collaboration. Southern Maine Community College believes that collaboration within the College and with the broader community is essential in order to achieve the College's mission and goals.

Personal Connections. Southern Maine Community College believes that each individual deserves respect and encouragement and that the interaction among students, faculty and staff is an important part of the total educational experience.

Vision

Southern Maine Community College: the institution of choice for innovative and high-quality technical, transferable, cultural and community-based education.

Goals

Enrollment. Southern Maine Community College will increase enrollment by at least 10% per year for the next eight years. SMCC's enrollment will reflect the diversity of the College's service area.

Educational Offerings and Delivery. As a comprehensive community college, SMCC will provide programs that meet the educational and workforce preparation needs of our students and the State of Maine; and ensure that all students, as well as incumbent workers and employers, have access to these programs through a variety of service delivery methods.

Facilities. Assuming sufficient financial support, SMCC will have up-to-date, energy efficient facilities to meet all College needs and the increasing demand of enrollment growth.

Economic Development. As a premier provider of an educated workforce, SMCC will develop and sustain the human capital necessary to strengthen the economy of Southern Maine and be viewed as the partner of choice for workforce and education needs.

Student Services. SMCC will create an environment in which all students are informed, involved and engaged members of the College community.

Technology. SMCC will have technology that supports operations and educational programs.

Finances. SMCC will secure financial resources through a proactive, multifaceted strategy to successfully support a 10% annual growth in student enrollment.

Human Resources. SMCC will attract and retain highly qualified and diverse faculty and staff as well as provide professional development to ensure that College employees have the skills needed to support our mission and vision.

Program Offerings

SMCC offers a wide variety of academic programs. For each program there are one or more awards: associate in applied science (AAS), associate in science (AS), associate in arts (AA), or certificate. The program and award options listed in this table are available for students who initially enroll during the 2007-08 academic year. Students who enrolled in earlier years may currently be pursuing program and award options that are not listed, because changes in occupational needs may result in modification of the curricular offerings for new students.

Full-time and part-time students enrolled in credit courses

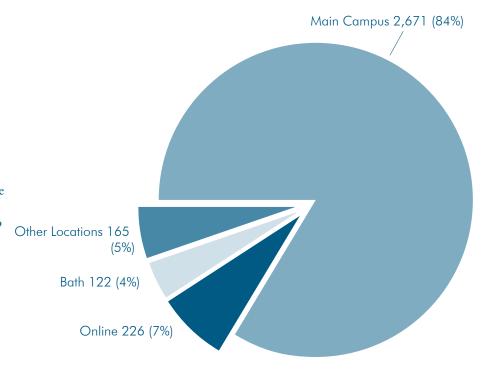

A majority of SMCC's 5,113 credit students are matriculated students. Of these students, a slight majority are part-time students (enrolled in fewer than 12 credit hours of courses).

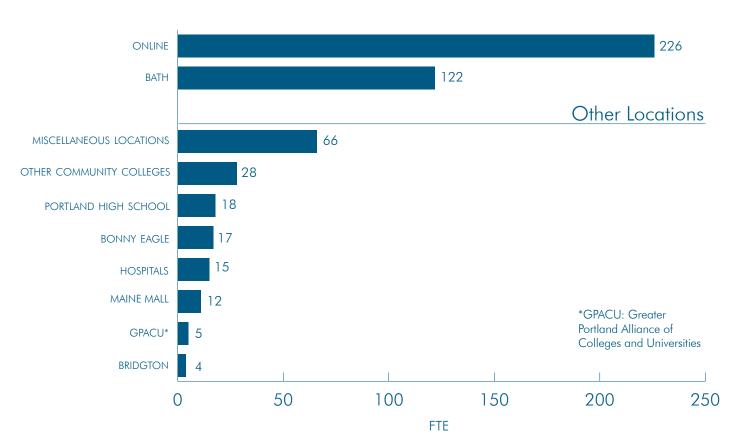

Credit students by location

Most SMCC credit students are enrolled in courses offered at the main campus in South Portland. However, students are also enrolled in courses offered at other locations or online. The following charts display the student concentrations at all locations and for on-line courses during the Fall '07 semester.

FTE (full-time equivalent) student counts are used for this purpose, because the FTE count reflects the appropriate proportion of full-time and part-time students at each location, and also because an FTE count allows a student to be counted in two or more locations without the distortion of being double counted. The FTE student count is calculated by adding together the total credit hours enrolled by all students, and dividing that sum by 15.

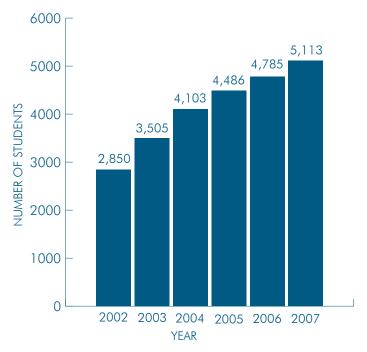

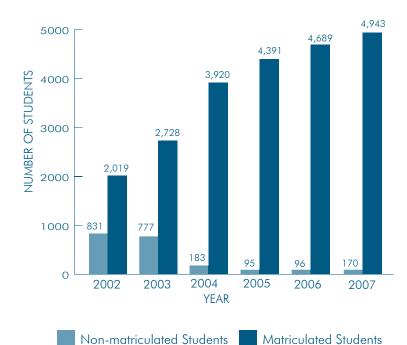

For courses not offered on the main campus in South Portland, on-line courses and courses offered at the Bath campus provide the biggest draw. The FTE for on-line courses exhibited the largest increase from Fall '05 (FTE: 131) to Fall '06 (FTE: 179): a 37% increase.

Success of SMCC Students

Student success may be measured in a variety of ways. The charts and tables on this page show completion rates, state/national credentialing rates, and awards granted.

Tracking cohorts of students for their success

The chart above and table to the right display the success rates (graduation rates and rates of transfer to another college or university) for 8 cohorts. Each cohort consists of all first-time, full-time students who initially enrolled at SMCC in the fall semester of the designated year.

Initial enrollment at SMCC	Cohort Size	# Graduates*	# Transfers	Graduation Rate	Transfer Rate	Total Success Rate
Fall 1997	272	99	29	36%	11%	47%
Fall 1998	388	156	43	40%	11%	51%
Fall 1999	375	137	37	37%	10%	46%
Fall 2000	362	117	45	32%	12%	45%
Fall 2001	391	142	52	36%	13%	49%
Fall 2002	426	140	56	33%	13%	46%

Fall 2004	846	194	128	23%	15%	38%

^{*} The number of graduates who graduated no later than 150% of normal time needed for graduation.

Success in state & national credentialing exams

The table to the right displays, for relevant programs, the percentage of graduates who passed an exam offered by a state or national certification or licensure board.

Awards Granted By Year

NOTES:

• These counts are the most recent counts available, as of late August, 2008. They represent an updated version of the counts of awards that are presented in last year's (2006-07) Fact Book. It should be noted that the final 2008 count will probably be greater than the count displayed in this table, since eligibility for an award is not recorded until the required graduation fee has been received and a final graduation audit has been completed. The number of students recieving these awards may be less, since some students receive more than one award.
