

NFPA Certified Fire Inspector (CFI) TRAINING

Gain a Technical Foundation: Build the specialized knowledge that will set you apart as a highly-qualified candidate in the fire protection and safety industry.

? ABOUT

This course prepares participants for the NFPA Certified Fire Inspector (CFI) credential in accordance with NFPA 1030, Standard for Professional Qualifications for Fire Inspector and Plan Examiner, combining both CFI-I and CFI-II job performance requirements.

The training focuses on the core codes and standards used by fire inspectors in the field and is designed to build the knowledge and practical understanding needed to successfully pass the NFPA CFI exam and perform inspections competently and consistently. This program is for both fire department inspectors or fire & life safety industry professionals.

Exam Content Areas

- NFPA 1, Fire Code (2024 edition)
- NFPA 13, Standard for the Installation of Sprinkler Systems (2022 edition)
